

Commissionaires is Canada's leading security provider, offering our clients the highest level of reliability, experience and innovation. We have protected people and property from coast to coast for more than 80 years.

OUR PEOPLE

Commissionaires, 19,000 strong, are primarily former Canadian Forces and RCMP personnel of all ages who perform with integrity, skill and discipline. You can always trust Commissionaires to act in your best interest.

CLIENTS

Commissionaires provides private and public sector clients with complete security solutions, from air and sea ports, border crossings, and government facilities to hospitals, schools, and commercial enterprises - wherever our clients need security.

FULL RANGE OF SERVICES

Commissionaires, known for our expert security guarding, also offers a full range of related security services and solutions. We have unmatched resources to plan, design, implement, and manage a solution for any security requirement. Whether we are creating a comprehensive system from the ground up or supplying individual solution components, our services and solutions include the delivery of superior personnel, from guarding to integrated technology offerings. Our full range of offerings include:

- > Consulting
- > Guarding
- > Mobile Patrol & Alarm Response
- > Technology

CONSULTING

Our security consultants are highly qualified (including Certified Protection Professionals™/CPP™) and have the advanced skills and experience required to provide advice and guidance on security issues such as technology audits and site surveys to determine your precise security needs. We offer complete planning and design services, which include product selection, project management and budgeting for your security implementation. To ensure that you get the most cost-effective solution, we focus on combining the right technology with the right people. Our full range of consulting services include:

- > Threat Risk Assessment (TRA)
- > Emergency Planning
- > Business Continuity Planning
- > Security Planning
- > Loss Prevention

OUR COMMITMENT

You can count on Commissionaires' commitment to provide professional security services and solutions when and where your organization needs them anywhere in Canada. We constantly seek to add value to your enterprise. When you choose Commissionaires, you can have total confidence that you've made the right choice.

GUARDING

Commissionaires has a reputation for integrity which helps attract and retain high calibre people, security cleared and many with military or police experience. Our security guards are professionals who are trained to handle most situations. Our philosophy supports a service that defuses and resolves conflict; we are highly skilled in crisis management. We are flexible and versatile and provide superior service for a broad range of situations including:

- > building and grounds patrolling
- > customer service
- > site activity log management
- > security technology management such as CCTV monitoring

Our services are designed to suit your specific situation, full or part-time and we train our members to above industry standards. Whether you need to supplement your own security services or outsource all your security requirements, trust Commissionaires to satisfy all your security needs.

MOBILE PATROL AND ALARM RESPONSE

Our fleet of patrol vehicles proactively tours selected residential and business districts across the country. Our commissionaires are trained to ensure your premises are secure by performing checks such as securing gates, making sure external doors are locked, checking windows or walking around the premises' perimeter. Additionally, if there is an alarm you can trust us to get there quickly and to deal with it efficiently. We'll perform a thorough internal and external inspection; prepare an incident report and co-ordinate with the police as necessary (e.g., carry out a break and entry investigation); then re-secure your premises before leaving.

TECHNOLOGY

Commissionaires partners with leading, trusted technology firms to provide our clients with efficient, cost effective state-of-the-art security. Our technology based security solutions allow you to monitor people and property anywhere:

- > Lone Worker Monitoring
- > GPS Asset Tracking
- > Alarm Monitoring Services
- > Anti Counterfeiting
- > Loss Prevention
- > PC/Laptop Loss Prevention

Trust Commissionaires for all your security needs.
